Education

Ballari Institute of Technology and Management Bachelor of Engineering in Computer Science and Engineering (Data Science)	Ballari, India Expected Year: 20XX
---	---------------------------------------

Technical Skills

Languages: Python, C++

Data Analysis & Visualization: NumPy, Pandas, Matplotlib, Seaborn

Developer Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

Projects

Project Name 1 <i>Technologies Used: Python, Pandas, Matplotlib</i>	GitHub Link
---	-----------------------------

- Implemented data analysis workflows to clean, transform, and visualize complex datasets.
- Derived key data insights using custom visual charts and optimized processing scripts.

Project Name 2 <i>Technologies Used: C++, Algorithms</i>	GitHub Link
--	-----------------------------

- Developed a efficient C++ program to solve computational data structures problems.
- Applied object-oriented techniques to build modular, maintainable code structures.

Certifications & Achievements

• Certification Name / Course Details	<i>Issuer/Year</i>
• Achievement or Workshop Details	<i>Year</i>
